

Courtyard AP Academy Curriculum Offer

The personalised approach offered at the Courtyard AP Academy enables all learners to be successful and to access and engage fully with the curriculum. We provide bespoke packages which enable learners to make accelerated progress and support them to develop a love for learning. Integrated interventions include the use of various levels of questioning, the use of OT equipment, Read, Write, Inc/phonics, personalised planning and resources, speech and language input and targeted 1:1 support. In addition, learners are offered a therapeutic space including Lego group and art therapy. Alongside these interventions, learners have access to weekly Behaviour for Learning sessions which support individuals to take responsibility for the learning and which promote positive relationships with themselves, others and the curriculum.
